05 Power on/ Power off

English

Power on and Pair Automatically

Open the charging box and take out the earbuds. They will power on and pair with each other automatically. After pairing, the red and blue light of the main earbud will flicker which means they are waiting for pairing with a smart phone.

LED Indicators

Power off

Put the earbuds into the charging box and close the box, they will power off automatically and start to be charged.

Power Button

Manually power on: Press and hold the power button for 3 seconds to turn on the earbuds. The blue indicator will stay on for 1 second with a prompt sound.

Manually power off: Press and hold the power button for 5 seconds to turn off the earbuds. The red indicator will stay on for 2 second with a prompt sound.

06 Bluetooth Connection

English

After the earbuds connect with each other successfully, activate the Bluetooth of your device and search for X12. Select it on the list to connect.

Other instructions

1. The earbuds will re-connect the last paired smart phone automatically once they power on.
2. If you want to connect them with another device, please turn off the Bluetooth of the last paired device and then the earbud will be available for pairing with a new device.
3. Put the earbuds back in the charging box and they will charge automatically.
4. The earbuds will power off automatically in 5 minutes if they do not connect to any Bluetooth devices.
5. Please make sure the earbuds are in pairing mode (the indicator of the master earbud blinks red and blue) if your new smart device does not find X12 to connect.

07 Touch Control

English

After connecting with your smart device, you can operate the earbuds as below.

08 Product Specifications

English

Product Appearance

Weight of Charging box: 76.4g Weight of Each Earbud: 18g
Size of Charging box: 92*59*37mm Size of Earbud: 39*47*30mm

Sound

Loudspeaker: 1pcΦ12mm full-range speaker Acoustic Structure: In Ear
Loudspeaker Frequency: 20Hz - 20KHz Resistance: 32Ω
Max Output: 4.5 mW

Bluetooth

Bluetooth version: Bluetooth 5.0 Bluetooth Frequency: 2.4 - 2.48GHZ
Bluetooth Working Range: ≤10M Bluetooth protocol: HSP/ HFP/ A2DP/ AVRCP
Supported BT format: SBC, AAC Sensitivity: -88dBm
S/N: 88dB

Microphone

Omnidirectional Clear Microphone Sensitivity: -42±2dB

Battery

Battery of each earbud: 50 mAh Battery of Charging box: 1050mAh
Charging Time of earbuds: 2 hours Charging Time of Charging box: 3.5 hours

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
